PATRICK BOOTH

Knightstown, IN | (765) 561-1847 | patbooth2@gmail.com

Professional Summary

Construction and utility coordination professional with earlier hands-on experience installing, programming, and troubleshooting alarm, video surveillance, and access control systems at Koorsen Fire & Security and a smaller security firm. Led utility coordination across more than 50 concurrent transportation projects and brings six years of roadway and bridge inspection and oversight. U.S. Navy Electronics Technician veteran, INDOT-certified Utility Coordinator, and OSHA 30 trained.

Relevant Skills

Security system installation, programming and troubleshooting • Contractor and field-team coordination • Schedule and milestone tracking • Project reporting and document control • RFIs and change orders • Plan review • Excel reporting and workflow improvement • Bluebeam Revu

Professional Experience

American Structurepoint | Utility Coordinator | Jan 2026 – Nov 2026

Led utility coordination for more than 50 concurrent transportation infrastructure projects, tracking deliverables, deadlines, and project milestones.

Coordinated electric, gas, telecommunications, water, and sewer providers with project teams to identify facility conflicts and support relocation planning.

Prepared and tracked INDOT notices, verification requests, conflict analyses, work plans, follow-up correspondence, and coordination records.

Improved Excel tracking and reporting, correspondence preparation, contact management, and electronic file organization.

SJCA, Inc. | Resident Project Representative | 2022 – 2025

Oversaw daily construction on major INDOT roadway and bridge projects, generally managing one major assignment at a time; supervised and coordinated inspectors.

Coordinated with project engineers and contractors on RFIs, change orders, field issues, schedules, and delays; led progress meetings and verified quantities and pay items.

SJCA, Inc. | Construction Inspector | 2019 – 2022

Inspected roadway and bridge construction against plans and specifications; documented contractor activities, installation methods, materials, quantities, and field issues.

Additional Security Systems Experience

Koorsen Fire & Security and an earlier security firm | Security System Installation and Service

Installed alarm, video surveillance, and access control systems over several years of earlier technical work.

Programmed systems and troubleshot equipment and operational problems in the field.

Military Service

United States Navy | Electronics Technician | 2008 – 2012

Petty Officer Second Class E-5

Operated, maintained, and troubleshot communications systems, encryption equipment, and secure communications hardware.

Supported reliable operation of technical communications equipment in a security-conscious military environment.

Certifications and Training

INDOT Utility Coordinator Certification | Earned April 2026

OSHA 30-Hour Training | Completed

Previously held, now expired: INDOT Construction Inspector and Certified Technician; ACI Concrete Field Testing; INDOT HMA/Asphalt, Concrete, Stormwater/Erosion Control; ATSSA Work Zone Traffic Control.

Education

College coursework, no degree
